# LEGACY

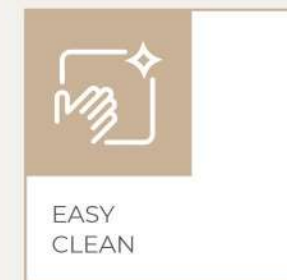

Create emotions through the essence of matter, give identity to the space, tell about new philosophy of being. Acrylite by Bravia is created with the desire to create unique and modern interior. Made with special treatment of surface, Bravia laminates is a surface material like no other. It feels softer and work harder than any other door skin. It's created using a technology that it protect it from marks, finger prints and accidental abrasions so it stays looking better for longer.

We have made Acrylite Anti Scratch Glass Laminate such a pleasure to touch, it is designed by professionals who deliver nothing less than the best. It is the best decorative surface for your interior. Each design has its niche look and appearance that has not seen before. Bravia premium acrylic laminate is made to last and retain its great looks for years.

## SPECIAL FEATURES

Key benefits of Bravia Acrylic Laminates that makes them a perfect surfacing solution.

## CARE OF LAMINATES

**Bravia Laminates are manufactured with aesthetics and durability in mind. When used as recommended and with appropriate care, our laminates will last through the years. Bravia laminates are easy to maintain.**

- Cleaning should be done with water and clean non-abrasive cloth.
- To remove more stubborn stains, use mild household cleaners like colin IP gently wipe down with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleaners, bleaching compounds or solution as these may damages the surfaces of the laminate.
- Do not place hot cookware directly on the laminate. Prolonged exposure to temperatures above 30 degree Celsius may cause damage to the laminate surface.
- Do not use the laminate for purpose that it is not intended for (E.g. do not iron, chop, hammer or expose the laminate to open flame).
- Outdoor application of the laminate with exposure to direct sunlight and weather conditions are not recommended.
- UV rays may reshape the laminate.
- Gloss surfaces are recommend only for vertical application.
- Do not use thinner and lolvene on the surface of the Signature laminates. This may cause decourisation of the surface.
- Typically confirm to internationally recognize technical standards.
- Have a thickness balance of  $\pm 10\%$ .
- Peel off the protective film after processing.

## IMPORTANT INFORMATION

**Air bubble formations on Laminate :**

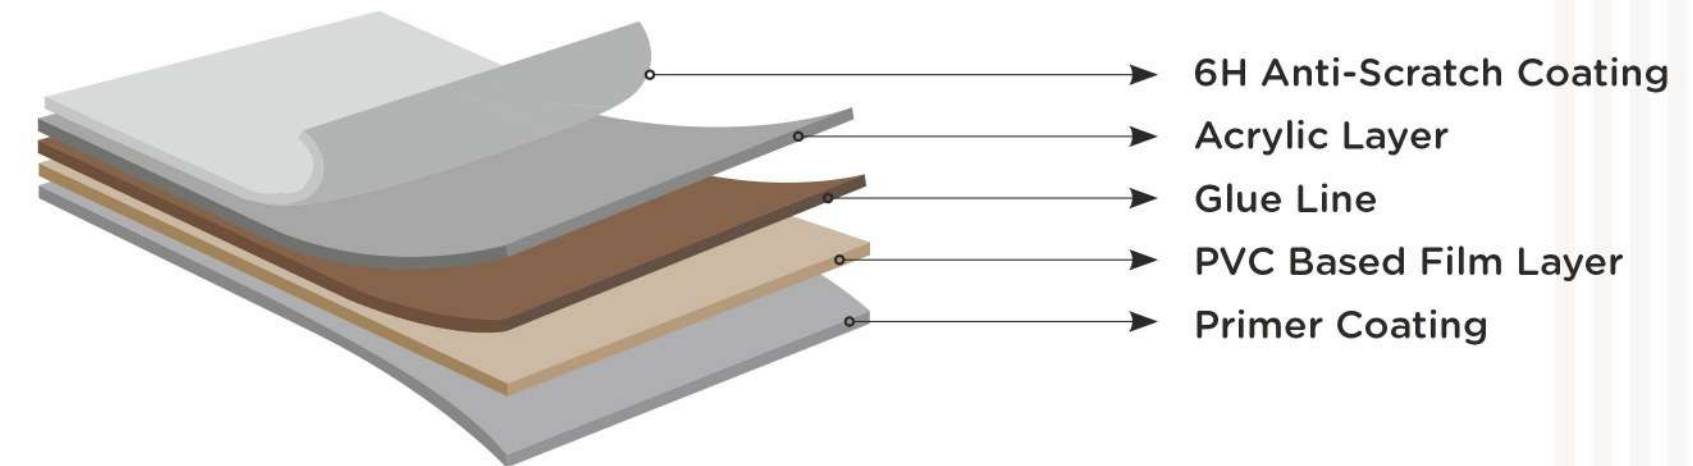

- Using of water based adhesive or other than PVACP (Polyethylene Vinyl Acetate co-polymer) adhesive may also lead to air bubble after the installation of acrylic laminates. We recommend to use adhesive.
- Bonding of acrylic laminates under high humidity atmosphere.
- Using uneven surfaces substrate (Plywood, MDF, Particle Board) Lead to at particular area of acrylic laminates and air bubble appear at that area after the installation.
- Due to uncertain weather condition, base substrate may absorb moisture and after few days of installation base substrate gradually loses moisture resulting in air bubble formation between acrylic laminate and substrate.
- When more than 8' x 2' of Acrylic laminates is used for panelling, it can lead to air bubble after installation.
- Lack of bonding / pressing during the time of installation of acrylic laminates may lead to air bubble.
- Acrylic laminates should be kept evenly straight. It the laminates are in roll form, it should kept straight for minimum 48 hours and then can press and laminate on the surface for better results.

Bravia is not responsible for any damage, cracks, bubbles or colour fading if the sheets are not checked when delivered and are not properly applied as instructed above.

## INFORMATION

**No guarantee in any circumstances like crack, bubble, color fade and color variation. Please check material when delivered.**

- No guarantee & no exchange in any circumstances.
- There can be color variation in material from different batches.
- It is advised to use same batch material to avoid color variations.
- Actual colors of the laminate sheet may vary from this brochure.

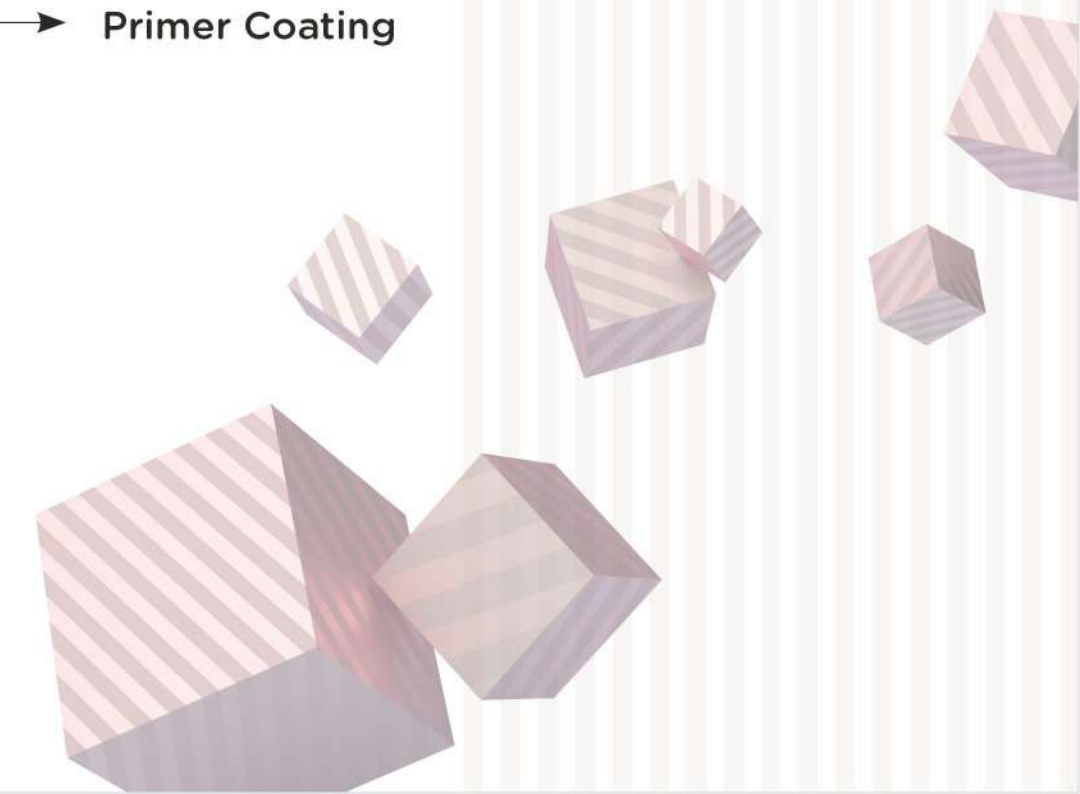

### Available Size :

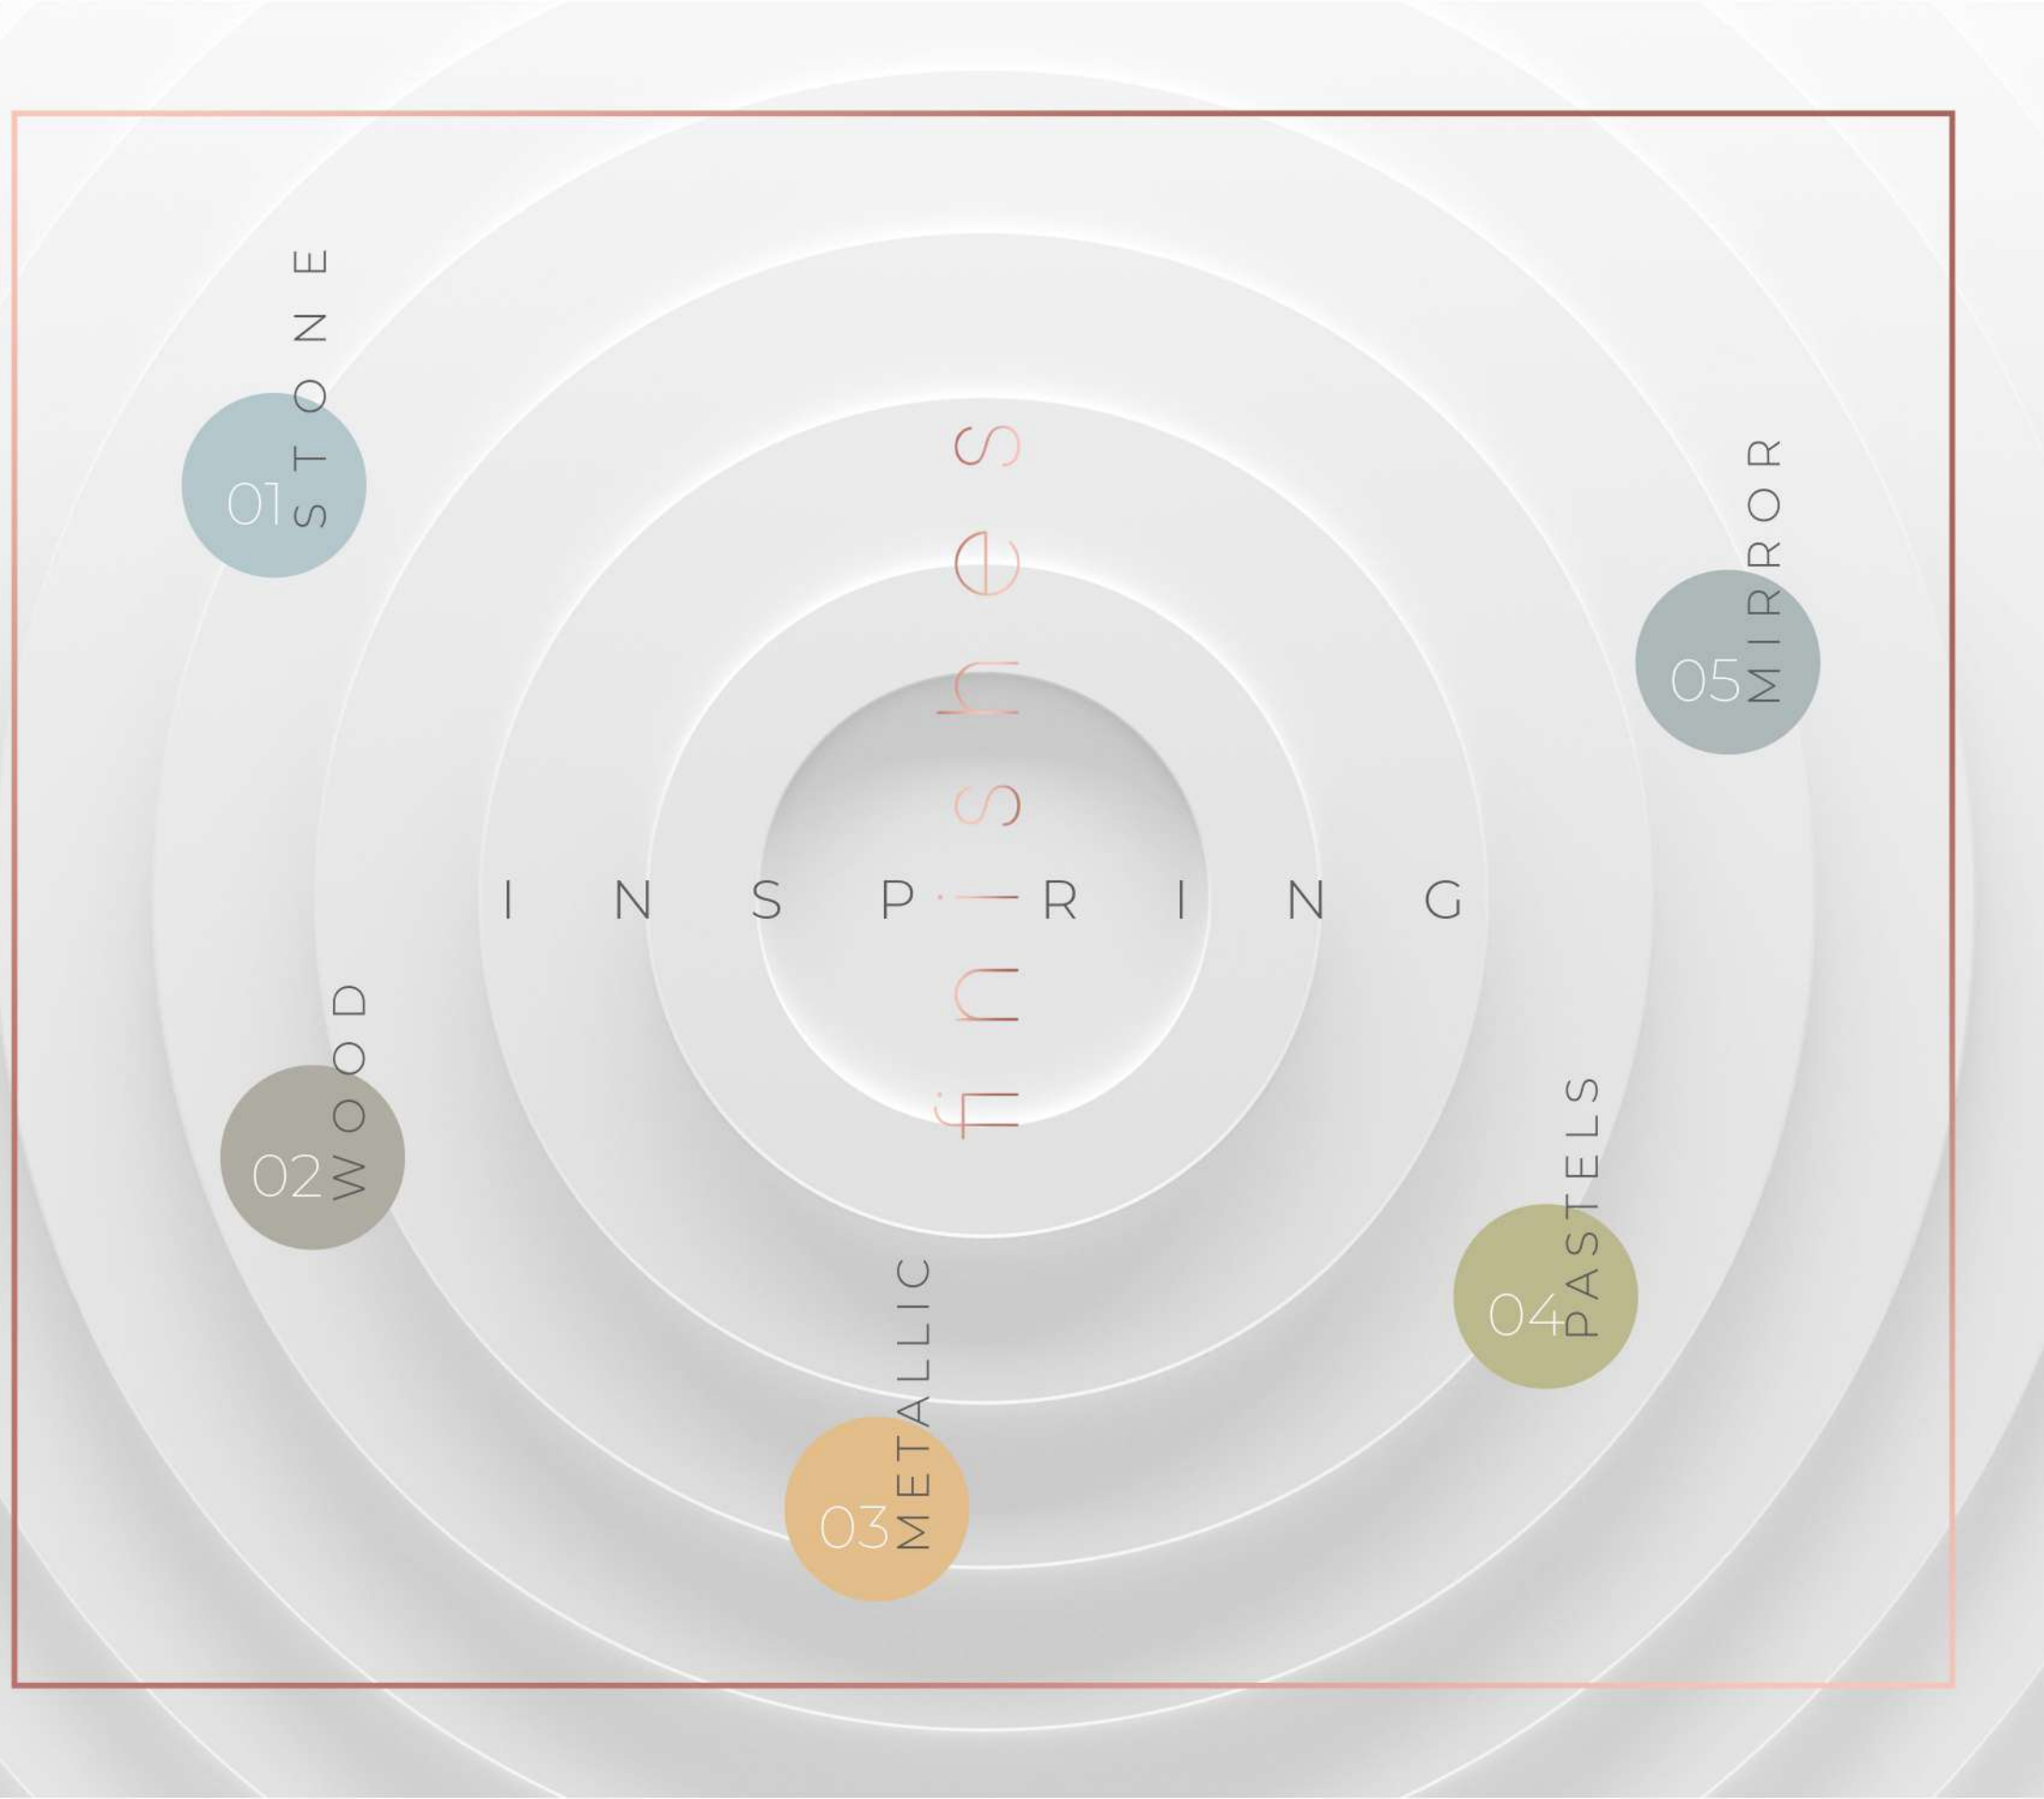

2440mm x 1220mm (8 ft x 4 ft)  
Thickness - 1.5 mm ( $\pm 10\%$ )

### Edge Banding Size :

Size : 25mm ( $\pm 5\%$ )  
Thickness - 1.2 mm
